Pricing & Monetisation Manager - Product Strategy, Freshworks

Oct 2023- Present

Pricing & Monetisation Strategy (Impact : ~\$15M)

- Owned the strategy and execution of **Freddy AI Agent's new pricing and packaging launch**—positioned for ~\$10M in ARR impact. Built a scalable SKU model, **redefined billing and renewal flows**, and led company-wide enablement to ensure smooth adoption.
- Led pricing and packaging for the **launch of a new omnichannel CX platform**. Collaborated with **senior leadership** to determine the overall product strategy. Conducted extensive **competitive benchmarking**, assessed **feature depth**, and collaborated cross-functionally to drive internal readiness and GTM planning ahead of launch.
- Orchestrated the product roadmap for **repackaging Gen AI capabilities** to democratize AI for all agents. Defined user segments, prioritized use cases, and **ran beta programs** to test packaging hypotheses through in-product feedback, cohort testing, and pricing experiments, leading to ~\$5M ARR in projected revenue. Led **sales validation & high-impact CXO discussions** to drive alignment.

Strategic Business Growth Initiatives (Impact: ~\$13M)

- Led **product-led growth experiments** across **contrasting markets** to revive a declining SMB-focused plan. Enhanced **feature discovery** through guided onboarding & UI nudges; **aligned packaging** with product value, resulting in **20% increase in top-of-funnel volumes & 15% uplift** in feature adoption.
- Implemented **chatbot monetization strategy** via session policy revisions, contributing **\$3M ARR**.
- Devised strategy and enabled seamless GTM execution, by implementing **programmatic escalator clauses** to address continued high discounting in top products, generating ~\$10M ARR.

Staff Program Manager - GTM, Freshworks

Sept 2020 - Sept 2023

- **Sales Strategy for Focus Product** : Laid the foundation, devised business strategy and program-managed a cross-functional **team of 14** focused on GTM for FW CRM - **sales tech product**. Complete ownership of pipeline generation – partner interlocks, integrated marketing campaigns, BD activities leading to generation of **\$1.2M ARR pipeline in 4 months**. Created B2C industry-based **product-led sales plays** in coordination with Product, Content and Sales teams.
- **Sales Strategy for Focus Market** : Built and implemented a **GTM program from scratch**, focussed on **selling to Indian startups**, identifying TAM and creating industry-specific strategies. Drove targeted marketing campaigns, created tailored sales collaterals, & leveraged startup focussed events to build pipeline. Secured **40+ new logos in two quarters** generating **\$600K ARR**.

Product Manager, Product-led Growth, Freshworks

Sept 2020 - Sept 2021

- Drove **product-led growth** efforts for Freshworks CRM and Freshsales through **optimized onboarding flows**—secured 8% (Freshsales) and 11% (FW CRM) modal CTRs, **boosting retention**. Executed in **partnership with engineering, content, and design** using insights from Appcues and Heap.
- Conducted extensive competitive research and leveraged **user behavior analysis through Heap** to design effective onboarding strategies, **identify drop-off points** and **enhance customer engagement** by highlighting core features in the product.
- Created customer profiles and badges based on feature usage, utilizing behavioral insights to drive **early adoption of advanced features**.
- Introduced non-intrusive nudges & quick help features increasing **feature utilization by 15%**.

Assistant Systems Engineer, Tata Consultancy Services

Sept 2016 - May 2018

- Developed a **Supply Data Management App** for a UK-based retail client using BI tools to improve data integration process by 75%
- Pioneered **adoption of Scrum Methodology** for project management & improved client engagement
